

RAM KUMAR S

+91 9551733526 @ ambikaram 026@gmail.com CHENNAI, India

Profile

I'm a proactive and adaptable developer who's ready to take on impactful roles in software development, data analytics, or cybersecurity. With solid technical skills in Python, Java, and JavaScript, I can build secure, scalable, and efficient solutions tailored to real-world needs. I'm driven by problem-solving, continuous learning, and delivering results that make a difference. I thrive in collaborative environments and am fully prepared to grow with the organization while contributing meaningful value from day one.

Education

Dr. M.G.R Educational and Research Institute

2022 - Present

Bachelor of Engineering , Information Technology

CGPA : 8.17

Don Bosco Matriculation Higher Secondary School , [Chennai]

• 10th (SSLC) - 82.2%

2018 - 2019

• 12th (HSC) - 80.5%

2020 - 2022

Skills

Technical skills

Python , Java , JavaScript

Data Analytics

- Python (Pandas, NumPy), Excel, SQL, PowerBI

Operating Systems

- Red Hat Linux Administration

Cybersecurity & AI

- Practical exposure to tools and techniques

Soft Skills

- Leadership, Decision-Making, Communication, Logical Thinking

Projects

Foodiee

Spearheaded the end-to-end development of Foodiee, a full-stack web application enabling users to search for food recipes and restaurants. Led the project from the initial design and architecture phase through to final deployment and launch.

Chrome Extension for Phishing Email Detection

Engineered a security-focused Chrome Extension to identify and flag phishing attempts within emails. The extension integrates with the Gmail API using OAuth 2.0 for secure inbox access and employs regular expression pattern matching to detect malicious links in real-time.

Study Portal

Developed a collaborative Study Portal designed to centralize and share curated programming notes and educational resources. The platform provides a streamlined environment for users to access aggregated information from diverse online sources.

Cyber - Physical Training System

Currently developing an advanced Cyber-Physical Training System that utilizes embedded sensors to provide real-time feedback on a trainee's physical actions. This system creates an interactive, closed-loop feedback mechanism to verify correct task performance, thereby improving training effectiveness and safety.

Events Attended

- GIAN course on “**CHAIN OF THINGS : A COURSE ON BLOCKCHAIN & IOT**”

Indian Institute of Technology , Ropar.

- “**CANVA WITH AI** “ Workshop

SRM Institute of Science and Technology , Chennai

- “**ART OF HACKING** “ Workshop

Velammal Engineering College , Chennai.

- **HACKATHON**

Velammal Engineering College , Chennai.

- **CII 5th Edition Surface & Coating Expo 2025**

Chennai Trade Centre , Chennai.

Internships

- Corizo Edutech Internship on Full Stack Web Development
(5th September 2024 to 5th October 2024)

- Corizo Edutech Internship on CyberSecurity
(5th November 2024 to 5th December 2024)

Certifications

- AWS Cloud Practitioner
- AWS S3 Basics
- Microsoft certification on building a computer vision app with Azure Cognitive Services
- Infosys Springboard Microsoft Azure - Basics
- Red Hat Linux Administration
- Python for Data Science
- Full Stack Web Development & Cybersecurity Internship
- Business Analytics and Process Management
- GIAN course in “CHAIN OF THINGS : A COURSE ON BLOCKCHAIN & IOT”
- Canva AI workshop 2nd prize
- Machine Learning with Python

Responsibilities

- **Event Co-Ordinator**

Played important role in and symposium events for past 2 years by effectively managing tasks and volunteers and created a symposium website for all events from scratch to deployment.

- **Social Worker**

- Mobilized 50+ student volunteers through Young Indians club to organize events for PWDs, ensuring seamless execution and positive engagement that benefited 150+ individuals.

- Volunteered as an organizing team in the CII 5th Edition surface coating & Expo , organized more than 350+ company stalls
